**WORLD  
WATER DAY**  
MARCH 22

Globally Water Day is held annually on 22 March as a means of concentrating attention on the significances of freshwater and advocating for the sustainable management of freshwater resources.

An international day to commemorate freshwater was recommended at the 1992 United Nations Conference on Environment and Development (UNCED) in Rio de Janeiro. The United Nations General Assembly responded by designating 22 March 1993 as the first global Water Day.

**Rotary** has partnered with the United States Agency for International Development in Ghana, Madagascar, and Uganda to implement sustainable, long-term programs to improve water supplies, sanitation, and hygiene.

**Rotary** has challenged our members to develop sustainable water, sanitation, and hygiene education projects in five countries: Belize, Guatemala, Honduras, India, and Kenya.

WASH projects: Since 2013, The Rotary Foundation has invested in more than 1,000 WASH projects in more than 100 countries. Through grants from **The Rotary Foundation** and fundraising by Rotary clubs, our volunteers have supported water purification, hygiene education, toilet construction, and waste management.
